

# BRADFORD COUNTY PROPERTY APPRAISER DOCUMENTATION

## LAST MODIFIED: Oct. 2016

BRADFORD COUNTY PROPERTY APPRAISER DIGITAL DATA  
 Geodataset Name: OWNERSHIP  
 Geodataset Type: SHAPE  
 Geodataset Feature: POLYGON

### GENERAL DESCRIPTION:

This dataset contains ownership boundaries, dimensions and some data related to assessment valuation of properties.

DATA SOURCE(S): Bradford County Property Appraisers Office.  
 Property ownership map's  
 Topo's  
 Deed's  
 Survey's  
 Aerial Imagery

SCALE OF ORIGINAL SOURCE MAPS: 1" = 300'

DATE OF AUTOMATION OR SOURCE: Automated 1995

GEODATASET EXTENT: Bradford County, Florida

## **USER NOTES:**

The digital data sets are used to create electronic and hard copy maps for the purpose of parcel mapping evaluation. The data can be used to conduct visual referencing on specified scales. No responsibility is assumed by the Bradford County Property Appraiser's Office in the use of these data.

A note concerning data scale:

Scale is an important factor in data usage. Certain scale datasets are not suitable for some project, analysis, or modeling purposes. Please be sure you are using the best available data.

1:24000 scale datasets are recommended for projects that are at the county level.

1:24000 data should NOT be used for high accuracy base mapping such as property parcel boundaries.

1:100000 scale datasets are recommended for projects that are at the multi-county or regional level.

1:250000 scale datasets are recommended for projects that are at the regional or state level or larger.

Vector datasets with no defined scale or accuracy should be considered suspect. Make sure you are familiar with your data before using it for projects or analyses. Every effort has been made to supply the user with data documentation. For additional information, see the Data Source Contact section of this documentation.

## **QUALITY ASSURANCE STATUS:**

- \*Merged individual sections into one seamless county map.
- \*Converted original line work to polygons.
- \*Reprojected data from utm to state plane.
- \*Converted coverage to shapefile.
- \*Changed original file name from parcel\_regions (2001) to ownership.
- \*Converted graphic text to annotation.
- \*Property ownership map's aerial imagery, deed's topo's and survey's were all used as references.

## **DATA LINEAGE SUMMARY:**

This data was originally started in 1990 using FastCad software. In 1995 started using InfoCad software.

1997 converted to ArcView.  
Added Cedra AvParcel extension for parcel maintenance in 2001.

## MAP PROJECTION PARAMETERS:

Projection	State Plane
Units	Feet
Top	424080.100000
Left	2627791.650000
Right	2747157.590000
Bottom	269572.010000
Data Type	Shapefile Feature Class
Shapefile	c:\digital data parcel\ownership
Geometry Type	Polygon
Coordinate System:	
False Easting	Lambert_Conformal_Conic
False Northing	1968500.000000
Central Meridian	0.000000
Standard_parallel_1	-84.500000
Standard_parallel_2	29.583333
Latitude of origin	30.750000
GCS_North_American	29.000000
Datum	1983_Harn
Harn	D:North_American_1983
Prime Meridian	0
	0
